Title	DA Camp _ Final Project
Task	Power BI Dashboard
Name	Orgwan Dandeni
Specialty	Data Analyst
Email	0r6wan@gmail.com

1) KPI

I used them to display operating revenues, operating expenses, employee compensation, as well as the percentage of facilities using internet-connected systems and devices.

2) Donut Chart

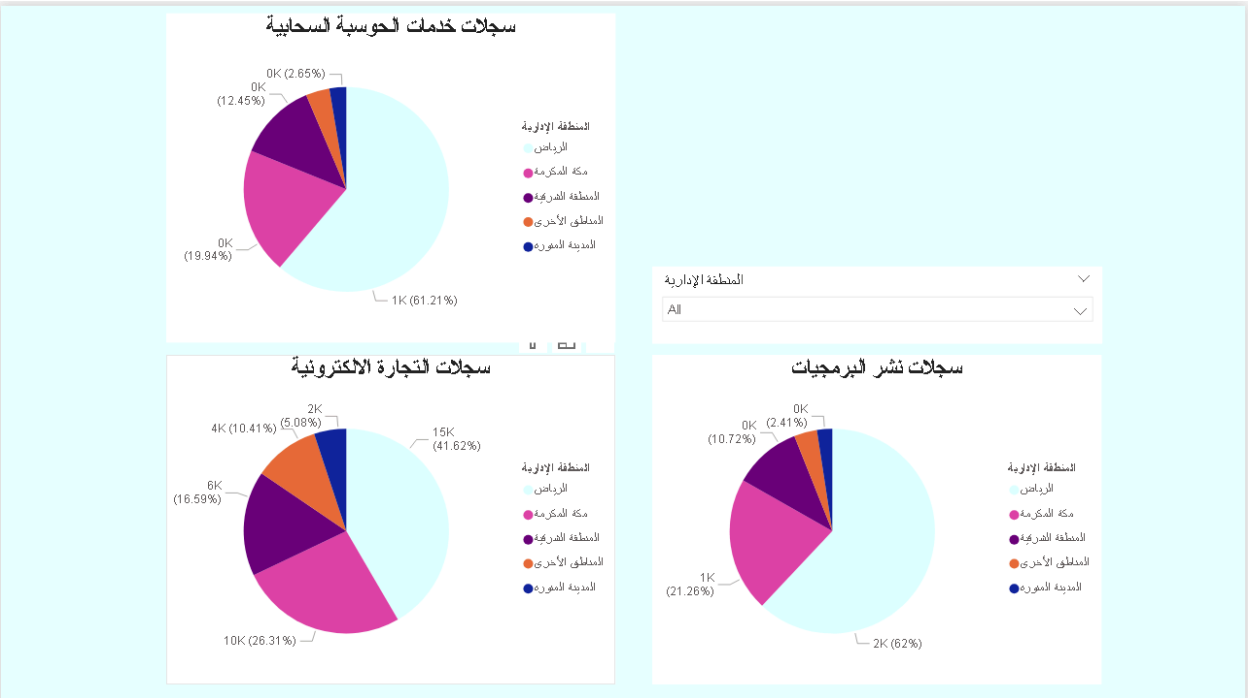

I used a Donut Chart to show the share of the digital economy in the gross domestic product (GDP) across the broad, basic, and narrow scopes.

3) Stacked Area Chart

I added a Stacked Area Chart to display imports of ICT goods versus exports.

4) Clustered Bar Chart

I used it to compare the number of records related to e-commerce, software publishing, and cloud computing services between 2022 and 2023.

5) Pie Chart

I used three Pie Charts to display the number of records related to e-commerce, software publishing, and cloud computing services for each administrative region in Saudi Arabia.

6) Slicer

I added a Slicer to filter the data by administrative regions in Saudi Arabia.
